Parachute Program

2009 saw the formation of a new and exciting program: The Parachute Program. The Parachute Program was developed by Mojave Basin Youth Corps in a partnership with Victor Valley College, and funded by the James Irvine Foundation. This was one of the two programs selected from the entire state to be funded under the Careers and Colleges Connection Fund (CCCF). The goal of this program is to successfully transition students from MBYC into Victor Valley College by means of incentive support, a newly created summer transition program at VVC, and more. Twenty students were selected based off of attendance, grades and dedication.
